instructions

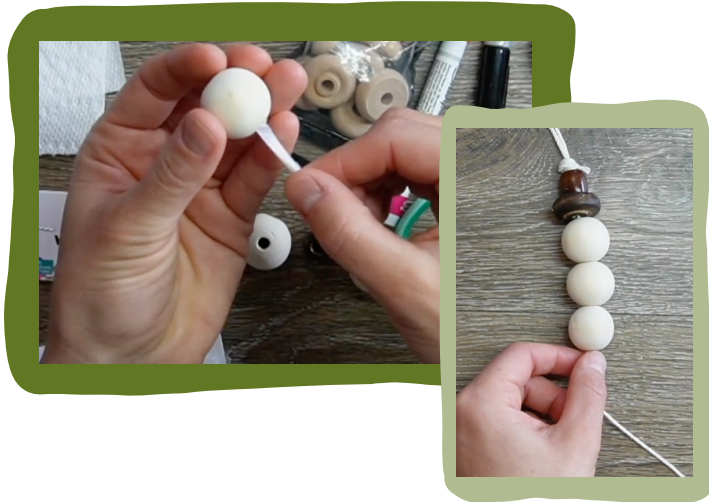

1

If you are using an unfinished wooden disc you can stain it and let it dry, if you are using a large button you can drill your hole first. (Always get an adult to help with this step!)

- 2** Wrap two pieces of tape around the end of the cotton cord to make it easier to string the beads through. I like to keep the cord attached to the spool until the end.

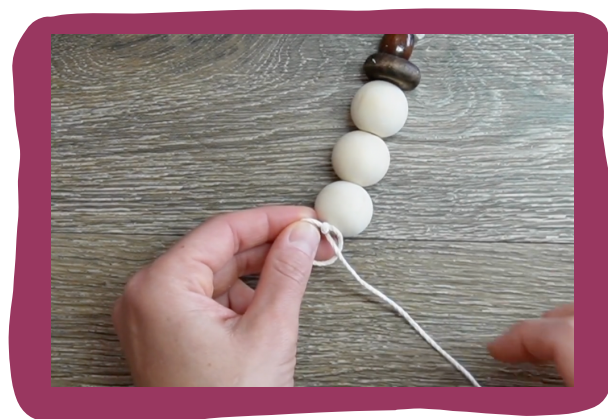

- 3** String the (3) round wooden beads onto the cord, then the wooden disc/button, and finally the barrel-shaped bead.

- 4** At the top near the barrel bead, leave a long tail and create a loop at the top for hanging. At the bottom of the loop, you will tie a knot, and then wrap the knot a few times to create some bulk so that the beads don't slip through. Trim the excess tail.

5 Slide the beads up and leaving a long tail at the bottom cut the cord from the spool. You will now create a knot at the bottom to secure the beads. Make sure there are no large gaps between the beads. Tie a few knots at the bottom to prevent the beads from slipping out. Trim the tail.

6 Cut your ribbon about 6" long or so, and tie it around the cord between the first two beads. Trim if needed.

7 Using your black Sharpie draw two eyes and a mouth, and with the orange Sharpie make a thin triangle for his carrot nose.
